Bobath Concept: Theory and Clinical Practice in Neurological Rehabilitation

Written by members of the British Bobath Tutors Association, *Bobath Concept: Theory and Clinical Practice in Neurological Rehabilitation* is a practical illustrated guide that offers a detailed exploration of the theoretical underpinning and clinical interventions of the Bobath Concept.

This book informs the reader of the neurophysiological principles, the clinical reasoning process and the treatment interventions used in the recovery of functional activity for moving between sitting and standing, walking, reaching and grasping.

Authors/Editors

Sue Raine MSc BSc MCSP
Walkergate Park for
Neurorehabilitation and
Neuropsychiatry
Newcastle-upon-Tyne

Linzi Meadows
MSc BSc(Hons) MCSP
Manchester Neurotherapy
Centre and Neurological
Teaching Centre

Mary Lynch-Ellerington
FCSP
International Neurotherapy
Centre Ltd

Contents:

- Chapter 1: The Bobath Concept: Developments and Current Theoretical Underpinning
(*Sue Raine*).
- Chapter 2: An Understanding of Functional Movement as a Basis for Clinical Reasoning
(*Linzi Meadows and Jenny Williams*).
- Chapter 3: Assessment and Clinical Reasoning in the Bobath Concept
(*Paul Johnson*).
- Chapter 4: Practice Evaluation
(*Helen Lindfield and Debbie Strang*).
- Chapter 5: Moving Between Sitting and Standing
(*Lynne Fletcher, Catherine Cornall and Sue Armstrong*).
- Chapter 6: The Control of Locomotion
(*Ann Holland and Mary Lynch-Ellerington*).
- Chapter 7: Recovery of Upper Limb Function
(*Janice Champion, Chris Barber and Mary Lynch-Ellerington*).
- Chapter 8: Exploring Partnerships in the Rehabilitation Setting: The 24 Hour Approach of the Bobath Concept
(*Clare Fraser*).
